Attachments: approved_1RP4735_11135250-07YuMann2 Closure Request.pdf

Dear Mr. Ericson:

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-4735** closed. This determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Mr. Brandon,

I agree that the site has been remediated and reseeded, but NMSLO will only issues closure once the site is revegetated. Depending on the success of the seeding effort this may be achieved in the first growing season, if not additional seeding may be required.

Olivia and Ryan,

GHD formally submits the attached Closure Request and supporting documentation for the ETC Field Services 2A-20 inch release. Included you will find the final C-141, completion photographs, and the previously submitted Remediation Summary Report.

If you have any questions, please call.

Thanks

Alan Brandon
Senior Project Manager
