Subject: proposed additional delineation for Chevron VGSAU 148: 1RP-3688
Date: Tuesday, July 24, 2018 4:02:00 PM
Attachments: approved_VGSAU 148 (1RP-3688).pdf

Messrs. Foord & Michelson:

Thank you for your patience. NMOCD approves of the delineation completed thus far for 1RP-3688. The proposed additional delineation to complete release characterization is also approved.

NMOCD database indicates State surface and mineral ownerships. NMSLO can verify. If so, NMSLO like approval required.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
