1RP5174_Cal C East 08062018 C-141.pdf

Good morning Ms. Blackaller:

Please note that this release occurred in District 2, but in order to facilitate documentation, NMOCD District 1 recorded the information. Also, please be advised that NMOCD databases indicate Federal surface minerals ownership.

Revised 19.15.29 NMAC effective August 14, 2018. Please note pertaining sections.
<http://164.64.110.134/parts/title19/19.015.0029.html>

The 1RP for this incident is

5174	8/24/2018	C	ETC (Energy Transfer) Field Services	Cal C East Pipeline		26S-31E-8C	8/6/2018
-------------	-----------	---	---	---------------------	--	------------	----------

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-5174** closed. However, this determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
