approved_1RP4594_1RP4795_(Closure Report) Jazzmaster 17 State #004.pdf

Dear Mr. Neel:

Please be advised that closure reports will be denied if GPS coordinates for release characterization and confirmatory remediation sample locations are not provided under revised 19.15.29 NMAC. For these, NMOCD will grant closure to 1RP-4594 & 1RP-4795.

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-4594 & 1RP-4795** closed. However, this determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

NMSLO accepts this closure report. And considers both of the RPs closed. Like approval from NMOCD is also necessary.
