Good morning Messrs. Brandon/Ericson:

NMOCD grants closure to the remediated area for 1RP-4524. Please be advised that as there is an identified section of the release area for deferral, a final C-141 is not applicable. Area deferred for remediation must be addressed at time of pipeline abandonment, retrofit, or inactivity.

NMSLO approval required. NMSLO may have additional concerns or stipulations.

Thanks,

Olivia Yu
Environmental Specialist

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
