13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Subsequent to encountering water flow at 2,860' MD, recieved verbal approval from Gary Gorley to: 1. Conduct pressure build up test after drilling to intermediate casing point @ 3,510', 2. If results of test indicated that Yates formation had sufficient integrity to hold column of cement then, 3. a single stage job would be pumped. Pumped 2400 sacks of class 'H' instead of the permitted 1,330' sacks of HLC.
