	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

LINN has Returned to Production the Mescalero Ridge Unit 211 effective 10-22-12. Water is currently being pumped off with small shows of oil. LINN will continue to pump off water until the well produces oil in paying quantities. Water from the MRU 211 is currently being pumped to the MRU 282 SWD.

LINN apologizes for the delay in bringing the well back on-line. LINN has been working with Excel Electric to establish power and install electrical meters at both the MRU 211 and the MRU 282 SWD. There were delays in completing the electrical work at both locations.

LINN has paid the \$250.00 fine as issued under ASC-036-23 on 10-19-2012.

OCD requires the form C-104 (Request for Allowable and Authorization to Transport) before you sell any product down the pipeline Per Rule 19 15 16 19

14. I hereby certify that the foregoing is true and correct.
