Devon Energy Production Company, L.P. respectfully requests changing the production casing string from the approved combination 7 x 5-1/2" to a 5-1/2", 17 ppf, RYP-110, CDC-HTQ connection. This change is due to getting the combination casing string stuck while running casing at 11,700' MD. The casing came free and was pulled out. The casing was changed out to run a stronger connection in case rotation is required to get casing to the total depth.
