13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once Testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Yates Petroleum Corporation wishes to amend the surface use plan for this well to include an overhead power line being approx. 1,441.2 feet as marked on the map. Yates would also like to amend the surface use plan to include a 3" SDR-11 poly surface flow line from the #2H following the roads to the #1 location and tank battery. The original archaeological reports that hve already been submitted should cover the projects.

14. I hereby certify that the foregoing is true and correct
