13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once tes g has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has de...mined that the site is ready for final inspection.)

**8/02/07 - Prior to deepening well we intend to perforate and add the Seven Rivers to the Yates which is currently producing 0 BOPD + 20 BWPD + 40 MCFPD. The perforated interval will be from 3134'-3244'.**

**SEE ATTACHED FOR  
CONDITIONS OF APPROVAL**

14. I hereby certify that the foregoing is true and correct.

GWW

### **SUNDRY NOTICE SPECIAL STIPULATIONS**

1. Approval is granted to add the perfs @ 3134'-3244' to this well based on the following stipulations:
2. 35' of cement must be bailed on top of the CIBP @ 3400' before or after the above perfs are added, if this interval proves to be economic.
3. If this test proves to be un-economic, all of the open perfs must be squeezed and tested before deepening operations begin.

### **Engineering**

**can be reached at 505-706-2779 for any variances that might be necessary.**
