13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This well was plugged prior to Celero taking over operations in 2007.

Attached is a copy of the approved P&A Notice of Intent (May 2001), an email correspondence from Paul Swarts of the BLM and a picture that Mr. Swartz took of the P&A marker on 3/27/2008 at this well.

Also attached is a copy of the front tab of the well file from the NMOCD showing where they had put this well as P&A status.

**Subject:** RE: Well status

**Attachments:** Trigg #10.JPG

Trigg #10.JPG  
(2 MB)

Thought you might want to see a picture of Trigg #10. (See attached file: Trigg #10.JPG)  
Could we get a sundry from you listing the current well status? Someone may have neglected to file a timely subsequent report of plugging, but we do need to update BLM's wellfile. Another BLM engineer in the office stated that a operator's sundry was needed before they would change the status.

---

Bruce,

Yesterday, David Glass and I visited the Trigg #10, 3000501011, T14S-R31E, Sec 9, NWSE and found an abandonment marker dated 8/03/2001. We can take this well off the NOW list for the present. Found records of an approved abandonment procedure but no subsequent report of P & A operations. I expect David will adjust the well status to reflect on-the-ground conditions.

Thank you for your efforts, the information, and the meal.
