	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

The above well as indicated in the approved NOI of 1/22/2010 is to be recompleted to the San Andres formation for the purpose of supplying water for the Warren Unit Waterflood. The intent is to drill wells in the 3rd Quarter that the supply wells would support. COP is still in the process of putting together the Plan of Development along with the application to the State Engineers Office. It is our request that the TA be extended through December 31, 2010 in order to drill the new oil wells and receive approval for the appropriation of the San Andres water for the above well and others in that the waterflood development is done in an organized manner.

* DENIED: Submit plugging procedure within 30 days or by 6/13/2010.

14 I hereby certify that the foregoing is true and correct. Name (Printed/Typed)
Donna Williams
