Spoke with Mr. Buddy Hill on 10/13/2010 at 10.45 AM about this C-103. I explained that the State A #11, API number 30-025-37293 was started to be drilled in 2005. The 20" conductor pipe (40' of conductor set in a 26" hole) was set crooked. 200 sx of redi-mix cement was dumped to plug conductor. Slid rig approximately 6' and restaked new location. The State A #11-Y, API number 30-025-37349 was drilled and still occupies this location. This C-103 is being issued to release the original API #30-025-37293 but was only for the conductor pipe.
