13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

**Approximately 1,490' of new access road from existing lease road required for access to drilling location. Intersection point of access road with existing lease road was moved approximately 95' north from the original intersection point as previously permitted to avoid possible archaeological concerns. Amended survey and plat information are attached showing the specific route of this new access road. The archaeological clearance report has been submitted to the Bureau of Land Management RFO under seperate cover.**
