Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

This location remediation is complete. The caliche pad, flow line and all old piping have been removed. Location is contour with the terrain and was seeded with BLM Seed Mix # 2. An earthen berm was left at the site to discourage traffic and a dry hole marker (prairie chicken protective) is in place.
