Attention Mr. Reider

Dear Sir:

In line with our conversation of yesterday we attach hereto the properly completed forms for the drilling of the Ramey No. 2 well in Curry Co., and will advise that we are arranging with the representatives of U.S.F. & G. in Lubbock and Santa Fe to replace the present \$5,000. single well bond with a bond for \$10,000.

Our tentative plan is to drill and complete the Ramey No. 2 with a sampling laboratory on the well. With information so developed upon which we may rely with greater confidence, we will then be in better position to complete the first well without unduely speculative expense.

In the meantime we propose to leave the well capped in its present state. Toward cooperating with your office, and in an effort to keep your files up to date, we will advise you from time to time as the Number 2 progresses.

Very truly yours

  
L. C. Malone
