OIL CONSERVATION COMMISSION, Santa Fe, New Mexico,

Gentlemen:

You are hereby notified that it is our intention to commence the drilling of a well to be known as

Oil Development Company of Texas S F P RR Well No. 1-22 in SW/4 Company or Operator Lease

of Sec. 22, T. 9 S, R. 56 E, N. M., P. M., Crossroads Field, Lea County.

N

The well is 660 feet (N.) (S) of the South line and 1990 feet (E.) (W.) of the West line of section 22

(Give location from section or other legal subdivision lines. Cross out wrong directions.)

If state land the oil and gas lease is No. Assignment No.

If patented land the owner is Santa Fe Pacific Railroad Company

Address Albuquerque, New Mexico

If government land the permittee is

Address

The lessee is

Address

We propose to drill well with drilling equipment as follows: Heavy rotary rig

AREA 640 ACRES

LOCATE WELL CORRECTLY

The status of a bond for this well in conformance with Rule 39 of the General Rules and Regulations of the Commission is as follows: Indemnity Insurance Company of America; approved and filed on August 27, 1948

We propose to use the following strings of casing and to land or cement them as indicated:

Table with 7 columns: Size of Hole, Size of Casing, Weight Per Foot, New or Second Hand, Depth, Landed or Cemented, Sacks Cement. Rows include 17 1/2 inch casing, 12 3/4 inch casing, and 8 5/4 inch casing.

If changes in the above plan become advisable we will notify you before cementing or landing casing. We estimate that the first productive oil or gas sand should occur at a depth of about 9650 feet.

Additional information:

OIL CONSERVATION COMMISSION, By Roy Yarbrough, Title Oil & Gas Inspector

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It highlights the need for consistent data collection procedures and the use of advanced analytical techniques to derive meaningful insights from the data.

3. The third part of the document focuses on the implementation of data-driven decision-making processes. It provides a framework for how to integrate data analysis into the organization's strategic planning and operational decision-making.

4. The fourth part of the document discusses the challenges and risks associated with data management and analysis. It identifies common pitfalls such as data quality issues, privacy concerns, and the potential for misinterpretation of data.

5. The fifth part of the document offers recommendations and best practices for overcoming these challenges. It suggests implementing robust data governance policies, investing in data security measures, and fostering a data-driven culture within the organization.

6. The sixth part of the document provides a detailed overview of the data collection and analysis process. It includes a flowchart illustrating the steps from data identification to final reporting, ensuring that all stakeholders are aligned and informed throughout the process.

7. The seventh part of the document discusses the role of technology in data management. It explores how modern data management systems and tools can streamline the data collection and analysis process, improving efficiency and accuracy.

8. The eighth part of the document focuses on the importance of data security and privacy. It outlines the necessary measures to protect sensitive data from unauthorized access and ensure compliance with relevant regulations and standards.

9. The ninth part of the document provides a summary of the key findings and conclusions. It reiterates the importance of a data-driven approach and offers final recommendations for the organization's future data management strategy.
