Cross out wrong Assignment No.
of Sec. 27, T.9	 B	ld, Les County. h line and 660 feet 27 - 98- 368 odivision lines. Cross out wrong Assignment No.
of Sec. 27 , T 9	 S. R. S. B. N. M., P. M., Crossroads Fie The well is 660 feet (E) (S.) of the for (W.) of the fast line of Section (Give location from section or other legal sub directions.) If state land the oil and gas lease is No. If patented land the owner is U.D.Saryer Address Crossroads, New Maxies If government land the permittee is Address 	ld, Les County. h line and 660 feet 27 - 98- 368 odivision lines. Cross out wrong Assignment No.

The status of a bond for this well in conformance with Rule 39 of the General Rules and Regulations of the Commission is as follows: Blanket Bond previously filed.

We propose to use the following strings of casing and to land or cement them as indicated:

Size of Hole	Size of Casing	Weight Per Fost	New or Second Hand	Depth	Landed or Cemented	Sacks Cement
17*	13 3/8	10 ∦	Rew	250	Cemented	300 (Circ.)
12"	9 5/8	36#	New	4600	Generated	3500 *
7 7/8=	51/2	20	New	T.D.	Cemented	2000 *

If changes in the above plan become advisable we will notify you before cementing or landing casing. We estimate that the first productive oil or gas sand should occur at a depth of about **11,800** feet.

Additional information: We plan to take this test to approximately 13,000 feet. * Production string shall be commuted with 150 per cent of calculated amount to bring commut to bottom of the 9 5/8" casing. (Approximately 2000 sucks.)

Approved	Sincerely yours,
except as follows:	Mid-Continent Petroleum Corporation
