Magnolia Petroleum Company Re: Santa Fe A #1 Sec. 30-9S-36E
P. O. Box 727
Kermit, Texas

Gentlemen:

A check of the file on your Santa Fe "A" #1 shows that on September 21, 1951, a form was filed with this office showing that this well was to be deepened from the total depth of 4881 to 9800. Since that time we have had no further reports on this well, and since it appears on our current maps as a plugged and abandoned well, we are wondering if we should not have a report on this abandonment.

Please check this at your earliest convenience and file the proper forms so that we may put this file in order. If this well has been deepened, it will be necessary for you to submit in addition to the plugging forms, a supplement to the well record, showing this.

Yours very truly,

OIL CONSERVATION COMMISSION

U. S. CONSERVATION COMMISSION

HOBBES, NEW MEXICO

December 7, 1904

My dear Mr. Hobbes:

I have just received your letter of the 1st inst. and am glad to hear that you are interested in the life of the fish in your lake. The life of the fish in your lake is of great importance and I am sure that you will find it very interesting. I have just received your letter of the 1st inst. and am glad to hear that you are interested in the life of the fish in your lake.
