Mr. Harold Smith, Dist. Supt.
Mid-Continent Petroleum Corp.
Box 830
Midland, Texas

Dear Mr. Smith:

On March 28, 1949, we approved Form C-101, Notice of Intention to Drill, on your State Land #12 Well No. One in the NE NE Sec. 16, T. 10S, R. 36E. Since that time all the reports have given the Township as 9 South instead of 10 South.

Will you please advise me at once the correct location of this well.

Very truly yours,

Oil Conservation Commission

Clarence Gardner

Secretary - Hobbs Office

CE

Would you please correct our forms to show 10S instead of 9S. We have been up in the Crossroads in 9S until it is getting to be a habit, I guess. *Thanks*
