Administrative Order NFO-451-A

Attention: Mr. W. V. Haggard

Gentlemen:

Reference is made to your application dated November 12, 1959, for permission to flare or vent low pressure casinghead gas produced from your Ohio-Federal Well No. 1, located in the SW/4 SE/4 of Section 24, Township 9 South, Range 37 East, Lea County, New Mexico, in the Sawyer San Andres Gas Pool. Administrative Order NFO-451 was issued by the Commission November 29, 1959, authorizing the flaring or venting of gas produced from the subject well until February 29, 1960.

We have reviewed your application and the administrative order entered in connection therewith and are now of the opinion that the period of time in which you were authorized to flare gas is probably unreasonably short.

We are, therefore, hereby rescinding Order NFO-451 dated November 29, 1959, and substituting for it this order.

By the authority granted me under the provisions of Rule 4 of Order R-1517 you are hereby authorized to flare gas from the above-described well until November 29, 1960, provided that the gas-oil ratio remains 2000 to 1 or less.

Reference is made to your application dated November 19, 1950, for permission to flare or vent low pressure gas produced from your Ohio Federal Well No. 1, located in the SW 1/4 of Section 27, Township 8 South, Range 33 East, Lee County, New Mexico, in the Eastern Gas Pool. Administrative Order H-1-12-6 was issued by the Commission November 29, 1950, authorizing the flaring of gas produced from the subject well until February 22, 1951.

The fact that your application was not recommended for further consideration by the Administrative Committee is not a reflection on your qualifications and we are sorry that the Committee did not recommend you for further consideration. We are sorry that you were not recommended for further consideration.
