Address **OIL & GAS INSPECTOR**

THEORY OF THE EARTH

CHAPTER I. OF THE ORIGIN OF THE EARTH.

THE first question which presents itself to the mind, is, what was the origin of the earth? and the answer to this question is, that it was created by the power of God, out of nothing. The second question is, how long did it take to create the earth? and the answer to this question is, that it took six days. The third question is, what was the state of the earth at first? and the answer to this question is, that it was a dark, formless, and void mass. The fourth question is, how did the earth become habitable? and the answer to this question is, that it was made habitable by the power of God, who created the sun, the moon, and the stars, and who gave life to all the creatures that inhabit the earth.

OF THE ORIGIN OF THE EARTH.
