17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

There remains on this lease the following equipment:

1. A 750 barrel power oil tank
2. A 500 barrel stock tank
3. A \_\_\_\_\_ size heater-treater

Though the well has been plugged, the pits, etc. have not been leveled nor the premises cleaned as would be if this well were completely abandoned. There is a Midland operator who proposes at an early date to re-enter the Cities Service offset well to the west and also to have placed up for bidding the 40 acre tract on which this well is located. This operator has asked that the equipment be not moved because he plans to be doing the proposed re-entry work and should like to have the equipment remain there.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
