Remarks: (Give explanation below)

Testing of the Devonian formation in the subject well is in progress. On initial tests the well has produced excessive amounts of water with the oil. Attempts are being made to reduce the water production in order to obtain a stabilized water-free production test. It is requested that a testing allowable of 500 barrels oil be granted, to be deducted from the well's allowable when completed.

The undersigned certifies that the Rules and Regulations of the Oil Conservation Commission have been complied with.
