17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Dug out cellars to expose outlets of bradenheads from the first string of pipe cemented in well and all subsequent heads to and including the tubing head. Built risers from connection on each well head with second valve on top of surface, to be able to check for pressure. Work performed has been inspected by Oil Conservation Representative, A. A. (Tony) Plattsmier

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
