Box 763
Hobbs, New Mexico

Gentlemen:

This office is in receipt of Form C-103 covering the plugging back and temporarily abandoning of your Hissom State "A" No. 1 located in Unit I of Section 9, T-11-S, R-33-E. This form will be held without approval.

Form C-102 covering your intention to do this work indicated that plugs would be set at the top of the Tubb, Glorieta and across the casing seat of your 8 5/8" casing.

Since these two forms do not agree, would you please advise this office why the change was made and if the fluids present in the zones above 7125 feet will be properly isolated until the well is utilized for salt water disposal or permanently plugged and abandoned.

Yours very truly,

OIL CONSERVATION COMMISSION

Joe D. Ramey
Supervisor, District 1
