Re: Final Approval
Brady M. Lowe No. 1-J 25-11-37
Grover C. Six No. 1-L 30-11-38

Gentlemen:

An inspection was made of the above-captioned locations on June 18, 1965 and it was found that a considerable amount of junk such as cable, seals and boards had been left scattered around both locations. The dead men and tie downs had not been cut or removed from either location, and the reserve pits at the Grover C. Six No. 1 had not been properly leveled.

Please notify this office when the above discrepancies have been corrected and another inspection will be made. If the locations are found to comply with the Rules and Regulations of the Commission, Forms C-103 will be approved without further delay.

Yours very truly,

OIL CONSERVATION COMMISSION
