Re: Final Approval State "28" No. 1
Unit P, Section 28, T10S, R32E

Gentlemen:

Recently an inspection was made of the above captioned location, and it was found that the pits had not been properly leveled and junk had been left scattered around the location.

Please inform this office when the above has been corrected, and another inspection will be made. If the location is found to be in accordance with the Commission Rules and Regulations, Form C-103 will be approved without further delay.

Very truly yours,

OIL CONSERVATION COMMISSION
