Re: Gulf-Sohio State #1  
Unit H, Sec. 8, T11S, R33E  
Lea County, NM  
North Bagley Permo Penn Pool

Gentlemen:

It has been called to our attention that we do not have an acreage dedication plat, Form C-102, on file for the above-referenced well reflecting the 80 acres which are dedicated to this completion.

Your original plat showed 160 acres but the well was permitted as a wildcat which required only 40 acres and upon completion was placed in the North Bagley Lower Penn Pool which was on 40-acre spacing. Several years later the Bagley, Upper, Lower and Middle Penn Pools were combined into one pool called the North Bagley Penn and this pool was on 80-acre spacing. I presume a revised acreage dedication plat was never filed showing 80 acres.

Please file a C-102 showing the 80 acres dedicated to this well. This C-102 does not have to be signed by a surveyor but acreage must be certified by a representative of Roberts & Hammack.

Thank you for your help in this matter.

Very truly yours,

OIL CONSERVATION DIVISION
