SUBJECT: South Lane SWD #35-D
Section 35, T10S, R35E

Gentlemen:

A letter was sent June 18, 1984, advising you that the OCD would conduct a pressure test on the above-referenced disposal well in 1984.

Mr. Alvin Wilks of your firm informed Evelyn Downs of this office on July 16, 1984, that there would be no need to test the well since it had a casing leak and that new tubing was being ordered for the well.

However, we have checked with Mr. Wilks on several occasions and he advises that the work has not been done to get the well repaired and back on active disposal.

You are hereby requested to submit Form C-103 by March 1, 1985, indicating your plans for repair or plugging of this well. Work will need to be completed within 60 days and we will want to witness repair work.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
