

NEW MEXICO OIL CONSERVATION COMMISSION
PACKER SETTING REPORT

Adopted
1-1-65

I, M. R. Frazier, being of lawful age and having full
Name of party making report
knowledge of the facts hereinbelow set out do state:

That I am employed by Phillips Petroleum Co. in the capacity of
Field Engineer, that on 4-28, 1965

I personally supervised the setting of a Lucas Model "D" Packer
Make & type of packer
in Phillips Petroleum Co. Lease name
Operator of well "Frazier"

Well no. 4 located in the Washington State Oil field, (County)
Leas county, state of T. M., at a subsurface depth of
9645'-43" feet, said depth measurement having been furnished me by
Phillips Petroleum Co.

That the purpose of setting this packer was to effect a seal in the annular space between two strings of pipe where the packer was set so as to prevent the commingling, in the bore of this well, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer; that this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.

M. R. Frazier
