Gentlemen:

This office is in receipt of Form C-103 covering the plugging and abandoning of your McGuffin Well No. 1. This is being returned to you for further information.

It will be necessary that you state the footage of both the 5 1/2" and 8 5/8" casing that was pulled from the hole. Also, you state that the 8 5/8" casing parted at approximately 1400 feet, and you indicated that you spotted an 80 sack cement plug from 829 to 599 feet. Further, you have indicated on your Notice of Intent to Plug that a plug would be set in and out of the shoe of the surface casing. Form C-103 does not indicate that this plug was set. Please explain this discrepancy.

Yours very truly,

OIL CONSERVATION COMMISSION
