17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well is currently producing from Wolfcamp perforations in the intervals 8676'-81' and 8699'-8709', with bridge plugs set at 8790' and at 9442'. We propose to squeeze off the present Wolfcamp perforations, drill out the bridge plugs, and return the well to production in the Upper Pennsylvanian zone through the existing perforations in the intervals 9433'-38' and 9446'-55'.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
