San Francisco, California

Gentlemen:

In January, 1966 we received Form C-103, Report of Final Plugging, for your State "D" No. 1 located in Unit J of Section 36, T-10-S, R-32-E, Lea County, New Mexico. At that time we sent you a form letter which you were to return to us when the location had been cleared and was ready for inspection by a Commission representative. We also requested that you file additional forms to complete our records. To date we have had no reply.

Please give this matter your immediate attention. In order to complete our file for the well we will need Form C-105, Well Record, two copies of a notarized tabulated list of the deviation surveys, and one copy of any electrical and radio-activity logs run on the well. Also, if the location is ready for inspection, please so state.

Yours very truly,

OIL CONSERVATION COMMISSION
