13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work, and approximate duration thereof. If the proposed is to deepen directionally or recompletes horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and so. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operation. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed if testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator determined that the site is ready for final inspection.)

We have been trying to close a deal with someone on our leases. We have finally signed an agreement that goes into effect January 1, 2001. The partner we are taking on on that date has agreed to put up the money to return this well to production as soon as possible. He has a few ideas he would like to try on this well to increase production. Seeing as this partnership does not go into effect until the first of the year, we would like to ask for an extension of time to return this well to production. Another 60 days would allow us the time to close the deal with this new partner, and allow him time to try acidizing and whatever else he wants to attempt to resume production.
