Proposed subsequent reports shall be filed within 30 days following completion of the involved operation. If the operation results in a multiple completion or re-completion in a new interval, a Form 1160-4 shall be filed only after all requirements, including reclamation, have been completed, and the operator determined that the site is ready for final inspection.)

The state has asked us to get several leases back into production. They have allowed until the end of the year. They are all in the Chaveroo Field. This is where our pulling unit is tied up for the next few months. When we finish up in the Chaveroo Field, we can then take the pulling unit across to the Sawyer San Andres to pull this well. We believe we just need to replace the pump. If you could allow us to the first of the year to finish up with the pulling unit where it is now, we will get this pulled, inspected, and repaired.
