Mr. J. D. Ramey, Supervisor
Oil Conservation Commission
P. O. Box 1980
Hobbs, New Mexico 88240

Dear Mr. Ramey:

This is in regard to our telephone conversation this morning concerning the August allowable for the subject well.

Our records reflect that Mr. B. H. Norris hand delivered Forms C-103, C-104, C-105, C-126 and a copy of the inclination affidavit to your office on August 30, 1966. The foregoing forms covered a flowing potential taken on August 21, 1966. Subsequently on September 6, 1966, we filed a supplemental Form C-103 and C-104 covering a pumping potential for this well conducted on September 2.

The forms approved by your office and returned to me with the September allowable assignment all indicate that they were received on September 6 with the exception of C-105 which indicates a September 2 date of receipt and Form C-103 which indicates an August 30 receipt at 11:54 a. m.

In our phone conversation you indicated that you remember Mr. Norris delivering these forms to you. By a copy of this letter, I am asking that Mr. Norris check with you personally to determine the date which these forms were actually delivered into your possession.

As I explained to you by phone, I am trying to salvage 10 days of August allowable based on the flowing potential of 165 barrels per day or a total of approximately 1650 barrels. I am vitally interested in obtaining all of the allowable to which I am entitled but cannot expect you to make any unreasonable concession if the facts do not warrant it.

Please let me hear from you after you have had an opportunity to discuss this with Mr. Norris.

Very truly yours,

ALLEN K. TROBAUGH
