Re: Gull State #1
L-18-11-34

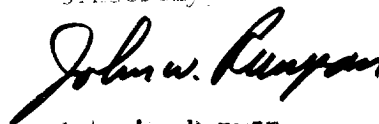

Dear Sir:

A recent inspection of the surface location of the above well, found that additional work will be necessary before the Commission can approve the plugging and/or release of this location. Work needed to location is as follows:

- a) No location on P&A marker. All else in good shape.

Please notify the Commission only when the above work is completed, and a Commission representative will reinspect this location.

Sincerely,

John W. Kunyan
Geologist
