.1. INCLINATION SUBJECTS

A. Requirement of

- i. An inclination survey made by Jermon or concerns approved by the Commission shall be filled on a form prescribed by the Commission for such well imited or teepened with rotary tools as a negult of any operation the course of the rell is changed.
- the first shot rount of such inclination survey shall be made at a nepth not greater than 3.0 feet below the similar of the ground and succeeding shot points shall be made either and 1.0 flow intervals or a the rearest drill bit change thereto; but not to showed 1.00 feet apart.
- te made either during the normal course of drilling or after the well has reached total cepth. Acceptable directional sure as may be filled in lieu of inclination surveys,
- less of the reason for which they are run, shall be filed as a part of or in addition to the inclination surveys otherwise required by this rule.

H. Reports

- 1. The report form prescribed by the lorm sion shall require that it ce signed and certified by a party having persons knowledge of the facts therein contained.
- a. The report shall include a abulation of the maximum drifts which could occur between the surface and the first shot point and each two successive shot points, assuming that all of the unsurveyed hole between any two shot points has the same inclination as that measured at the lowest shot point, and the total possible accumulative drift, assuming that all measured angles of inclination are in the same direction.
- 2. In addition, the report shall be accompanied by a sworn statement of the operator, or of someone acting at his direction on his behalf either, (1) that the well was not intentionally deviated from vertical whatsoever or, (2) that the well was deviated at random, with an explanation
- 3. The report small be filed in the limiting Office of the Commission for the district in which the well is crilled, as attaching one copy to each appropriate completion form for the vel..
- 4. The Commission may require the substituted of the original charts, graphs, or dives resulting from the survey:.
