Description of the work done on the well

DETAILS OF WORK

The following is a description of the work done on the well during the period covered by this report, including a description of the well, the location of the well, and the results of the work.

Drilled to 5000'. Ran 135 joints of 3 1/2" H-40 & J-55 S&C casing. Total 4996.96' set at 4999.25'. Used 3 centralizers. NJ cemented with 1500 sacks of 50-50 Mixix 6# gel and 1/4# of Floccs per sack followed by 200 sacks of Lone Star regular cement. PD at 10:45 PM 1-16-61. WOC. North well ran temperature survey. Found top of cement at 515'. Tested 3 5/8" casing with 1000' from 10:30 to 11 PM 1-17-61. Test OK. Drilled plug and shoe and resumed drilling.

I understand the above plan of work and agree to the proposed program of work. Special instructions may be controlled.
