Warren Petroleum Company
Gulf Oil Corporation
P.O. Box 905
Tatum, NM 88267

SUBJECT: Proposed plugging of
Tatum Plant #114/LPG Storage Well #1
Unit B, Sec. 18, T12S, R38E

Dear Mr. Adams:

In an effort to determine hole size and configuration in the salt section, the Oil Conservation Division has applied for some research funds to do some study in this area.

We would like to know if Warren Petroleum would consider granting the OCD permission to run some logs of the wellbore of the above-mentioned LPG storage well. We anticipate that we would be finished in approximately 6 months and then the well could be plugged and abandoned.

We will wait until we receive your reply before approving your proposed plugging procedure.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
