Re: Unorthodox Location
Johns Waterflood Project
Maljamar Grayburg San Andres Field
Lea County, New Mexico

Dear Mr. Stogner:

The Wiser Oil Company requests approval for an outside unorthodox location in the subject waterflood. This location, designated Johns B-DE No. 15 is shown on the attached map. The location of this well is as follows:

Johns B-DE No. 15
1305' FNL & 1336' FEL, Unit B
Section 24 - T17S - R32E

This well will more efficiently and effectively establish the pattern of the waterflood as set out by Order No. R-3011.

Attached are copies of the Application to Drill, C-102, map showing existing wells, proposed wells and proposed access roads and plat of the waterflood area showing the original 80-acre 5-spot waterflood patterns. It is anticipated that the injection pattern will become a 40-acre 5-spot pattern.

Notice of this Application has been provided by certified mail to the only offset operator, Penroc Oil Corporation, and we have requested this operator to waive objection to this Application. A copy of this letter is attached.

Your earliest consideration of this request will be appreciated as it is desired to start drilling during the week of August 15, if possible. Should you have any questions or require additional data, please contact the undersigned in Artesia at 748-3352.

Sincerely,

Perry L. Hughes
