Gentlemen:

Reference is made to your Notice of Intention to drill dated December 22, 1960, covering your No. 2 sandstone well in the NE1/4 sec. 13, T. 19 N., R. 32 E., N.M.P.M., Lea County, New Mexico on lease New Mexico 61215-1 which contains the "Potash Stipulation".

Pursuant to authority delegated by the Director, U. S. Geological Survey on July 7, 1960, I hereby approve the Notice of Intention to drill the above described well to a depth of approximately 3,400 feet to test the Yates formation. Please notify the District Engineer, U. S. Geological Survey, P. O. Box 11, Artesia, New Mexico, in sufficient time for a representative to witness all cementing operations.

Very truly yours,

John L. Anderson
Regional Office Supervisor

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

we propose to drill a Yates test well to an approximate depth of 3400' with rotary tools. Casing program to be as follows:

Hole Size	Casing Size & Weight	Approx. Depth	Sz. Cement
11"	8-5/8" 22.7# and 24#	300'	Sufficient volume to circ.
7-7/8"	4-1/2" 9.5#	3400'	Sufficient volume to tie surface and oil strings together.

King Phillips, Inc., 1109 Continental National Bank Building, Fort Worth, Texas, contractor.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Pan American Pet. Corp.
Hobbs, New Mexico

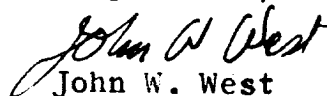

Gentlemen:

On December 5, 1960 a survey was made to locate your No. 2 well on the W. E. Bondurant Lease at a point 2310 feet from the North line and 330 feet from the East line of Section 13, Township 19 South, Range 32 East, N.Mex.P.M., Lea County, New Mexico.

A flag was set at the USGLO Brass cap section corner marker for the Northeast corner of section 13. The transit was set up over the Brass cap Quarter corner marker common to Section 13, Twp. 19S, R32E and Section 18, Twp. 19S, R33E. Thence chaining due North from the transit a distance of 330 feet, set a hub, thence chaining N 89° 50' W a distance of 330 feet to the Location Site. As a check we chained S 89° 50' E 330 feet, thence due North a distance of 2309.70 feet, checking within 0.30 feet of the distance called for in the USGLO Plat.

I hereby certify that the foregoing survey was made in the field under my supervision and that the same is true and correct to the best of my knowledge and belief.

Respectfully submitted,

John W. West
