

OIL CONSERVATION COMMISSION SANTA FE, NEW MEXICO

Miscellaneous Notices

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

June 2, 1944
Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Neville G. Penrose, Inc. **Humble-State** Well No. **1** in **NE 1/4**
Company or Operator Lease
of Sec. **12**, T. **18S**, R. **34E**, N. M. P. M., **Vacuum** Field,
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Hole of 11" diameter has been drilled from surface to depth of 1600' with rotary tools. Rustler anhydrite was encountered at a depth of 1580'. We propose to run 1600' of 8-5/8" lapweld, 32# casing and cement same with 50 sacks. In line with verbal approval obtained from your Hobbs office we propose to run a string of 1" line pipe outside the 8-5/8" casing and circulate cement to the surface from a depth below all potable water sands of this area in the event commercial production of oil and gas is encountered in the San Andres lime. In the event a dry hole is obtained we will be able to salvage more casing than would be possible under the plan as submitted with "Intention To Drill".

The above plan, as outlined, may be considered an amendatory report to the "Notice of Intention to Drill".

Approved **JUN 2 1944**, 19____
except as follows:
