Fox #1 - Lot #2

12/20, 1954

Well No. Fox #1 is located 1980 ft. from XX ^{N}_{S} line and 560 ft. from XX ^{E}_{W} line of sec. 18

SW-1/4 NW-1/4 - 18 18 South 34 East MMM
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)

Wildeatt Lea County, N.M. New Mexico
(Field) (County or subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 4040 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

I propose to drill this well to a total depth of approximately 5000' unless commercial production is obtained at a lesser depth. Approximately 1700 Ft. of 3-5/8" OD Casing will be set and cemented with 50 sacks on top of the salt. If production is obtained either 5-1/2" OD or 7" OD Casing will be run. Probably pay zone will be the Queen Sand at 4450'.

Combination Tools will be used.

This location is west of the Caprock escarpment, and out of the true boundary of the Lea County Water Basin.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
