

NEW MEXICO STATE LAND OFFICE
OFFICE OF THE STATE GEOLOGIST
SANTA FE, NEW MEXICO

MISCELLANEOUS REPORTS ON WELLS

Submit this report in duplicate to the State Geologist or proper Oil and Gas Inspector within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of water shut-off, result of abandonment of well, and other important operations, even though the work was witnessed by the State Geologist or Oil and Gas Inspector. Reports on minor operations need not be signed and sworn to before a notary public, but such operations should be witnessed by an Oil and Gas Inspector if possible.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS	<input checked="" type="checkbox"/>	REPORT ON DEEPENING WELL	
REPORT ON RESULT OF SHOOTING WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF WATER SHUT-OFF		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF ABANDONMENT OF WELL			

Wink, Texas, February 12, 1933

Mr. E. H. Wells State Geologist,
Santa Fe, N. Mex.

THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth and change. From the first settlers to the present day, the nation has evolved through various stages of development.

In the early years, the colonies were dependent on Britain for many goods and services. However, as the population grew, the colonies began to assert their independence.

The American Revolution was a turning point in the nation's history. It led to the creation of a new government and the establishment of the United States as an independent country.

Over the years, the United States has expanded its territory and influence. It has become a major power in the world, with a strong economy and a rich cultural heritage.

The American dream is a central theme in the nation's history. It represents the idea that anyone can achieve success and prosperity through hard work and determination.

The United States has also been a leader in the field of science and technology. From the invention of the automobile to the development of the space program, the nation has made significant contributions to human progress.

Today, the United States continues to grow and change. It faces new challenges and opportunities, but its history remains a source of inspiration and pride for all Americans.

THE AMERICAN REVOLUTION

The American Revolution was a period of conflict between the thirteen original colonies and Great Britain. It began in 1775 and ended in 1781.

The revolution was fought for the principle of self-determination. The colonists wanted to be free from British rule and to establish their own government.

The Declaration of Independence was a key document in the revolution. It declared the colonies' right to be free and equal states.

The revolution was a success. The United States was born as a new nation, free from British rule.
