

g. DISTANCES TO:

- (1) PONDS AND STREAMS - There are no surface waters within 1/2 mile.
- (2) WATER WELLS - There is one windmill approximately 2 miles southwest.
- (3) RESIDENCES AND BUILDINGS - There are no houses or buildings within 1/2 mile.
- (4) ARROYOS, CANYONS, HILLS, ETC. - Outside of low rolling sand hills, there are no surface features within 1/2 mile.

h. WELL SIGN - Sign identifying and locating well will be maintained at drillsite commencing with the spudding of the well.

i. OPEN PITS - All pits containing mud or other liquids will be fenced or guarded.

4. ROADS

a. EXISTING ROADS - All existing roads within three miles of well site are shown on Exhibit "A".

b. PLANNED ROADS - None needed.

c. FENCES, GATES AND CATTLE GUARDS - Will use existing cattleguard from blacktop road to existing lease road.

5. TANK BATTERY - If production is encountered, production equipment will be installed on existing well mat as shown on Exhibit "C".

6. LEASE PIPELINES

a. EXISTING - None.

b. PLANNED - If production is encountered, all lease lines are to be constructed on well mat.

7. WASTE DISPOSAL - Well cuttings will be disposed in reserve pit. Barrel trash containers to be in accessible locations within drill site area during drilling and completion procedures. All detrimental waste will be hauled away, burned or buried with a minimum cover of 24" of dirt. See Exhibit "C" for location of pits. If well is productive, maintenance waste will be placed in special trash cans and hauled away periodically. Any produced water will be collected in tanks until hauled to an approved disposal system, or separate disposal application will be submitted to the Survey for appropriate approval.

8. WATER SUPPLY - Supply water will be hauled.
