

Floristics

Shrubs are dominated by Prosopis juliflora, Artemisia filifolia, Yucca glauca, Gutierrezia sarothrae, and Quercus havardii. Forbs and grasses include Senecio longilobus, Solanum spp., Mentzelia sp., Hilaria spp., Tridens pulchellus, and Muhlenbergia spp.

Cultural Resources

No cultural resources were recorded during the course of this reconnaissance.

Recommendations

ACA recommends clearance for the proposed drill pad location and access road and suggests that construction proceed without modification of existing plans.
