Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Stanolind Oil & Gas Co State _____ Well No. **1** in **C SW SE**
Company or Operator Lease
of Sec. **1**, T. **17S**, R. **36E**, N. M. P. M., **South Lovington** Field,
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

This well was drilled to total depth of 4980'. 7" casing was set at 4555' and cemented with 300 sax. The formation was acidized thru 2-1/2" tubing with 3000 gallons by stages of 2000 and 1000 gallons each. Hole was swabbed clean without sufficient oil for test.

We therefore propose to develop the gas encountered at 3895 to 3906 with the following procedure: Cement back to 4500', fill the 7" casing with heavy mud from top of cement plug to gas zone, gun perforate the 7" casing from 3895 to 3906 with three .45" holes per foot
