Re: Calatex Exploration, Inc.  
New Mexico State #1-E  
Section 29, T17S, R36E  
Salt Water Disposal - R-8285

Gentlemen:

It has come to our attention that you are reporting disposal into the above referenced well. Our records do not show the well has been re-entered and converted to disposal.

Please submit Form C-101, Intention to Re-enter and also Form C-103 covering any work done on the well, and Form C-105, Completion Report. Please do this immediately. It should have been submitted prior to commencing any re-entry work-

I notice you submitted your name for the well as Buckeye, 8601 JV-P #1-SWD. If you choose to change the name from what was used by Calatex when they drilled the well I suggest you use SWD in the lease name or use a different well number since you already have a Buckeye, 8601 JV-P #1. Our well numbering system does not accommodate letters as part of the well number.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
